PROPERTY:

123 MAIN STREET
ANYTOWN, USA 12345-0034
SFR

INPUT FROM CLIENT:

Known Value: None Provided

Date: n/a

Source of Value: n/a

CSW'S Valuation:

Estimated Value: **\$132,000**

as of 02/01/2006

Safety Score:

65

Report Date:

02/22/2006

Value Range:

Estimated High Value: \$158,000

Estimated Low Value: \$114,000

Estimated Distressed Value: \$107,000

The values provided are summary statistics reflecting an aggregation of information and analyses Fiserv CSW, Inc. ("CSW") employed in its computation. The Estimated Value was determined for the date noted using any inputs supplied by the Client and one or more of CSW's proprietary valuation methods. The Estimated Value is accompanied by an indication of the predictive accuracy of the Estimated Value, which is labeled either as a "Confidence Grade" or "Safety Score." The predictive accuracy is based on the amount and quality of information available that pertains to the subject property. The Value Range numerically portrays the span of potential prices that a buyer and seller might agree on. The actual price range for a particular house may be affected by factors such as improvements to the property, individual tastes and number of houses on the market. The Distressed Value provides an estimate of the property if sold in a distressed situation (e.g. foreclosures, estate).
